

The purpose of a fellowship week end April 25-27, 2008 is not to have a set schedule but to allow the youth to talk openly with adult members on the things they are interested in.

Learn and share.

I feel very strongly that this should be the one weekend we set aside every year to talk about things in the Order that are of interest to the membership, kind of like a retreat if you will. This sort of thing can be put into a loose schedule Friday night depending on the interest of the members in attendance., I do not want to publish a set schedule for pre-assigned tasks. We will do just one thing for camp -put the dock in the water Saturday morning.

We should all re-read the purpose of our Order.

How can we fulfill that purpose here in the Valley? Camp Perry in particular needs our help. What can we do?

We are still looking for a sizable number of youth staff for this year's Summer Camp. Our youth members should be leading the way.

I see these actions taken by other lodges in our Section and only wish that we could be more like them.

In short I will do what the membership wants to do but, the membership must take more seriously "our intent".

To paraphrase JFK, "...ask not what your Lodge can do for you but, what you as part of the lodge can do for your Council "
